

ASA-SC Anambra Day and Fundraising Committee

Request for Information

Dear Members of ASA-SC,

On behalf of the members of ASA-SC Anambra Day and Fundraising Committee, we are compiling a list of our members' children who are currently enrolled in secondary schools in 6th grade through 12th grade (middle school through high school) in the United States. The reason for gathering this data is to invite your children who meet the above eligibility requirement to attend a Career Day Seminar that will be hosted by the Anambra State Association of Southern California (ASA-SC) in July 2016. The purpose of the Career Day Seminar is to begin to provide awareness to our children about the academic and practical demands of their career interest by offering the guidance and counseling they will need to achieve their dreams. The participants in our Career Day seminar will have the opportunity to hear and meet the practitioners in their future careers and also receive mentorship advice from our children who are currently in college studying in the same fields.

We will also like to obtain the names and fields of study of our Anambra children who are currently in college here in the United States. These college students are expected to attend the same seminar and serve as mentors and role models for our secondary school students.

The information we are requesting will be used solely for the ASA-SC Career Day and not for any other purposes. We encourage you to complete the backside of this form and return it to our Publicity Secretary, Chief Charles Muogboh, via email at c_muogboh@yahoo.com, no later than December 30, 2015. You may also hand deliver it to Charles Muogboh or Chris Ikeanyi during our Christmas Party on Saturday, December 5, 2015. Thank you in advance for your cooperation.

Respectfully,

Chris Ikeanyi
Committee Secretary
